AARAV SHARMA

Junior Software Developer

Kathmandu, Nepal | aarav.sharma@example.com | +977-9800000001 | linkedin.com/in/aarav-sharma-demo

PROFESSIONAL SUMMARY

- Entry-level software developer with internship and academic project experience building web applications and REST APIs. Comfortable collaborating in Agile teams, debugging issues, and writing maintainable code. Seeking a junior backend or full-stack development role.

CORE SKILLS

- Python | Django | Django REST Framework | JavaScript | React | PostgreSQL | Git/GitHub | REST APIs | Unit Testing

PROFESSIONAL EXPERIENCE

Software Development Intern — ExampleTech Solutions | *Jan 2026 – Apr 2026*

- Implemented and tested REST API endpoints for user profiles and inventory records using Django REST Framework.
- Wrote database queries and helped optimize list views with filtering and pagination.
- Collaborated with two developers through Git branches, pull requests, and weekly sprint reviews.

IT Lab Assistant — College Computing Lab | *Aug 2025 – Dec 2025*

- Assisted students with software setup, account access, and basic Windows troubleshooting.
- Maintained a simple issue log and escalated network or hardware faults to the lab supervisor.

EDUCATION

Bachelor of Information Technology | 2024 – Present

Example Institute of Technology, Kathmandu | Relevant study: OOP, databases, web development, data structures.

SELECTED PROJECTS

Campus Inventory API: Built a Django REST API with role-based permissions, searchable inventory records, and PostgreSQL persistence.

Task Tracker UI: Created a React interface with reusable components, form validation, and API integration.

CERTIFICATIONS & TRAINING

- Django REST Framework Fundamentals — Sample Online Course (2025)
- Git & GitHub Essentials — Sample Training (2025)

SAMPLE RESUMES — Fictional names, organizations, and contact details for practice/testing only
